

KCM Pre-Conference Day

We are excited to announce a one-day learning experience for KCM Community members, presented by Petey MacCarty and Kurt Kinsey, Program Development Specialists with the National American Indian, Alaskan, and Hawaiian Educational Development Center and Instructional Strategists for the US Math Recovery Council.

Session A:

Conceptual Place Value and the New Common Core Standards

Petey MacCarty will lead a 3-hour session on interpreting the Common Core Standards related to developing conceptual place value (hundreds, tens, and ones). Participants will have an introduction to the content of the newest publication in the Math Recovery series, "the Red Book" and the Framework for the teaching of Middle Number.

Session B:

Math Recovery Teaching: planning and reacting

Kurt Kinsey will lead a 3-hour session focusing on Math Recovery instructional decision-making and will provide opportunities for thinking about handling an impasse in the course of a lesson. MITs are encouraged to bring a video clip of a challenging moment from a Math Recovery lesson to share and problem solve with the group.

Wednesday, February 23, 2011, 8:30 a.m. to 4:30 p.m.

Crowne Plaza Lexington

Free to KCM Community Members
